

News for people participating in the 2012 National ICT Careers Week
Tuesday 26 June 2012

National ICT Careers Week 2012 News

This Year's Events and Activities

We are impressed with the range and variety of events and activities that you are presenting and suggest you have a look at the listings on the website.

A number of organisations have registered, but have not listed their event or activity. Please list your proposed event/activity to market your events.

Getting Interest In ICT Study and Work

We have realised that we need to stress to young people that ICT is not just about technology – it's about coming up with solutions to solve problems or to help people, businesses, communities and governments.

Developing ICT solutions means working with people to find a solution. This work can be challenging, but it is also creative, innovative, fast paced, stimulating and offers a lot of fun and excitement along the way.

Next Teleconference Before Careers Week

Tuesday 17 July 2012 at 13:00 DEST. The dial in teleconference invitation details will be emailed to you separately.

LinkedIn National ICT Careers Week Group

We have set up a LinkedIn group for National ICT Careers Week with the aim of alerting ICT professionals and managers about our mutual efforts to encourage more young people into ICT study and careers, and to let them know the types of events and activities that you are putting on as part of the Careers Week. If you are a member of LinkedIn, then join the National ICT Careers Week Group and let the LinkedIn community appreciate your efforts.

Help To Encourage Your Contacts To Participate

Please use your networks to encourage more organisations to participate in this year's National ICT Careers Week.

Contact for information and to give comments and suggestions –
Kerrie Bisaro 02 8296 4444, kerrie.bisaro@acsfoundation.com.au

Thank you for your interest in National ICT Careers Week,
Penny Coulter, Chair, National ICT Careers Week Steering Committee
